MORE TOIRPLUS FEATURES

Hundreds of features, guaranteed to work with any playing style.

Visuals

Robust visual features with various draw options, danger level drawings, spell positions and evade positions.

Evade

ToirPlus improves your movement with features such as auto evade, dodge only dangerous, reaction timings, spell radius, and path recalculation.

Activators

Are you tired of pressing F to flash? We have multiple activators to make your experience smoother, such as AutoFlash, AutoIgnite, Galeforce Activator, and more!

Awareness

ToirPlus features many worlds cheats like gank trackers, last enemy position, recall trackers, spell trackers so you can know if they have spells!

Customization

Are spells not landing? Lower your timings and fine-tune your delays to make the script perform how you want, also, if you don't like how the menu looks, just change the color!

Humanizer

ToirPlus features so much more, including a gameplay Humanizer, which will lower your chances of looking like a robot, with protections such as spell detection time, dodge interval, and click only once
